1   Quick start guide

1. Charge the battery for at least 2 hours or until the battery charger light turns green.
2. Open the battery cover by turning the knob (1).
3. With the connectors first and the indicator lights (2) facing upwards, push the battery into the battery housing.
4. Close the battery cover. Lock the cover by turning the knob.
5. Push the on/off button (3) to power on the camera.

Note   During the first use, keep the camera on for at least 1 hour to optimize the battery life.

2   Device setup wizard

1. The device setup wizard is run when the device is started for the first time.
2. The wizard asks for Wi-Fi settings (not supported in all regions), language, location, time zone, and application mode settings.
3. In the end, the instructions for registering the device for cloud use are given (not supported in all regions).

The cloud can be accessed at https://si124viewer.flir.com/.
